EDUCATION

Sinhgad Institute of Technology

Bachelor of Engineering in Information Technology-3rd Year(CGPA-8.5/10)

Lonavala , Pune

Aug 2023 – Present

TECHNICAL SKILLS

Languages: Python (Pandas , NumPy , Matplotlib), SQL

Data Analytics and Visualization: Advanced Excel , Google Sheets , Power BI , Tableau , Seaborn

Databases: MySQL , MongoDB (Basics)

Core Competencies: Data Analysis, Business Intelligence, Data Storytelling, EDA, Feature Engineering, ETL, KPI Dashboards, Stakeholder Communication, Data Preprocessing, Agile Analytics

Development Tools and Platforms: Git , GitHub , VS Code , AWS (foundational Knowledge)

Machine Learning (Basics): Supervised & Unsupervised Learning , Model Evaluation , Feature selection

EXPERIENCE

Data Analyst Intern

Mar 2025 – Jun 2025

Renu Sharma Foundation (Completion Certificate)

Remote , Haryana

- Analyzed and cleaned **30,000+ records** of program and outreach data using **Python (Pandas)** and **Excel** to support internal reporting and analysis
- Created **Power BI dashboards** and summary reports to track key metrics, helping teams make better data-backed decisions
- Shared insights with team members and stakeholders, contributing to improved planning and more efficient use of resources
- Skills: **Python, Pandas, Power BI, Data Preprocessing & Data Transformation, Reporting, Advanced Excel, Data Storytelling, ETL, Impact Analysis**

Software Development Intern

Nov 2024 – Jan 2025

BlueStock Fintech (Completion Certificate)

Remote , Pune

- Contributed to feature development, debugging, and deployment for Bluestock, a fintech app serving **200,000+ active users** and generating **15,000,000+ impressions**

Web Development Intern

Jul 2024 – Aug 2024

Zidio Technologies (Completion Certificate)

Remote , Pune

- Developed and optimized responsive web pages and UI components for client projects.

PROJECTS

Movie Dataset Analysis | Python, Pandas, Seaborn, Matplotlib, SQL

(Link)

- Performed **EDA** on a movie dataset using **Python (Pandas, Seaborn, Matplotlib)** to explore trends in popularity, ratings, genres, and languages
- Analyzed **500+ movie records** to identify genre-wise performance patterns and user preference insights
- Created clear visualizations such as bar charts, scatter plots, heatmaps, line charts, and word clouds to support data-driven insights

E-commerce Sales Performance Analysis | PowerBI, Excel, DAX

(Link)

- Developed a **Power BI dashboard** to analyze e-commerce sales, profit, and shipping performance across regions and categories
- Used **DAX** and data modeling to calculate KPIs and create interactive visuals for business insights

CERTIFICATES / ACHIEVEMENTS

- Oracle Certified AI Foundation Associate
- Certified in Python Programming by IIT Madras
- Data Science & Analytics by Pregrad & Wipro
- Data Analytics by Deloitte
- Business Intelligence Using Advanced Excel & Power BI
